A man right here in our town bought a low priced car last year. Some of the extras that he bought for it were:

High tension magneto. Shock Absorbers. New carburetor. Anti-rattling device. License brackets. Anti-skid rear tires. Foot accelerator. Speedometer. Spare tire bracket.

These cost him more than \$196.50.

Now he owns a 1915 Maxwell with all these modern features and a dozen others.

This "Wonder Car" with Electric Self-Starters and Electric Lights only \$55 extra.

introduced by Mr. Graham of Rockingham, places a penalty on town clerks for failure to transmit names and addresses of listers. House bill 374, introduced by Mr. Jones of Warren, fixes penalty for receiving incorrect inventory.

The committee bill which will be introduced some time this week provides for a flat rate on intangibles of seventh-tenths of one per cent but restores rights of offset up to 75 per cent. It, however, provides for a most drastic proof of offsets, including not only the bill for goods but railroad receipts showing their delivery by affidavit of seller.

This measure will probably go before the ways and means committee and it is said to have a fair chance of passage as a compromise measure.

The prohibition referendum bill will soon appear with a favorable report from committee, and with an amendment fixing the referendum in March, 1916, instead of November, 1915. A special election next November is now considered desirable by the friends of the committee. This bill will probably pass the house on the grounds that it is time after 12 years' trial of local option that the people go on record as to whether they favor the local option law or wish to return to prohibition. The senate is also expected to pass this bill.

Laws Passed or Killed.

The time has come when the legislature must give itself largely to the disposition of the business before it. The senate has killed the measure requiring interchangeable mileages on the railroads and the bill prohibiting gambling at the county fairs, the bill regulating child labor, the bill providing for uniform partnerships.

The senate has passed by a large majority the bill granting women the right to vote in municipal elections and for presidential electors. This bill will be reported favorably to the house and it is said there is quite a possibility it will pass that body.

The nomination of W. A. Dutton for public service commissioner was confirmed in executive session of the senate last Wednesday without further opposition.

Fish and Game Legislation.
The introduction of the following bills by the joint committee on fish and game indicates about what the legislature may accomplish on this subject. These bills are formed from the great mass of measures that have come before the committee stage.

H. 354 from the joint committee on game and fisheries as a substitute for H. 227, an act in amendment of subdivision A of section 19 of No. 201 of the acts of 1912, relating to the fish and game laws. (Fixes open season on woodcock from October 1 to December 1.) Ordered to lie and be printed.

H. 355, from the joint committee on game and fisheries as a substitute for H. 143 and H. 291, an act to amend sections 31 and 38 of No. 201 of the acts of 1912, relating to the fish and game laws. (Prohibits sale of bull pouts during June, Suckers, mullet and pickers may be taken with spear and jack; commissioner may issue licenses to residents, at one dollar each to fish for bull pouts. Ordered to lie and be printed.

H. 363, from the joint committee on game and fisheries, as a substitute for H. 155, an act in amendment of section 35 of No. 201 of the acts of 1912, relating to fish and game laws. (Fine of \$100 for removing or damaging a screen, or device maintained by the commissioner). Ordered to lie and be printed.

H. 346, from the joint committee on game and fisheries, substitute for H. 70 and H. 224, an act to amend Section 1 of No. 201 of the acts of 1912, relating to fish and game laws. (The term Lake Champlain, as used in this act to include tributaries as far back from their mouths as there is no visible current.) Ordered to lie and be printed.

H. 347, from the joint committee on game and fisheries, as a substitute for H. 10, H. 17, H. 23, H. 94, H. 97, H. 99, H. 117, H. 160 and H. 219, an act to amend paragraph A of Section 9, paragraph A of Section 16 of No. 201 of the acts of 1912, relating to fish and game laws. (Makes it unlawful to set a trap for deer killed while injuring crops.) Fixes open season for deer with horns not less than three inches long, from November 15 to December 5, inclusive. Sundays excepted, provided, however, that during the open season for 1915, any wild deer may be taken. Open for season for other November 1 to May 1. Open season for marten, raccoon, fisher cat and skunk from October 20 to April 1. Fox may be taken at any time excepting they cannot be trapped between April 1 and October 20. The taking of moose from holes or dens by digging, smoking or use of chemicals is prohibited.

Veto by Gov. Gates.

Last Wednesday Gov. Gates sent back to the house the joint resolution calling for an investigation of any secret financial interest back of Vermont newspapers without his approval because it was unconstitutional. He stated that no offence is alleged to have been committed and the legislature did not have the power to inquire into the private affairs of any citizen, that the resolution provided for unreasonable search and seizure in calling for the private books and papers of any witness summoned and that it gave the committee the power to punish for contempt, power the legislature could not delegate. When the vote was taken there were 221 votes sustaining the veto and not one against it.

Senate 45 providing for a textbook on Vermont industries and resources has been passed by the senate. It appropriated \$4,000. It was later recalled by the senate at the request of one senator who wished to amend the bill so that it would provide for the author of the book. The house has passed a bill to change the name of Wheelock Pond to Lake Mirror.

Mr. Miller of Bethel has introduced a bill to impose a tax upon moving picture theatres. It fixed a graduated tax as follows, to be paid state treasurer April 1: For theatre of 350 capacity, \$10; theatre of more than 350, \$15.
